

What could you do with 30 simultaneous streams of 1080p ProRes422 HQ?

A lot.

This graphic is courtesy of Warren Miller Entertainment.

- Enable on-line quality, full-resolution, multi-track editing for my entire team
- Edit 10-angle HD multicam events on 3 different workstations simultaneously
- Give my finishing and compositing systems as much real-time performance as they need.

The performance and stability provided by Dot Hill allows you to customize your workflow to the needs of each project, without worrying about the capabilities of your storage.

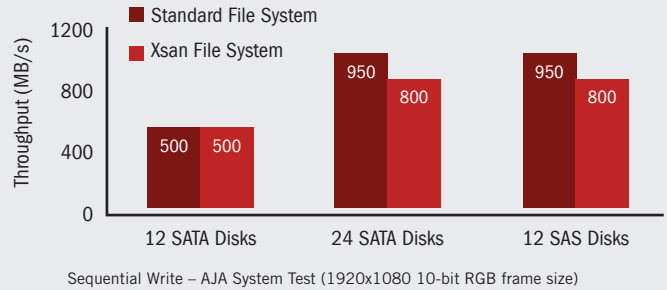

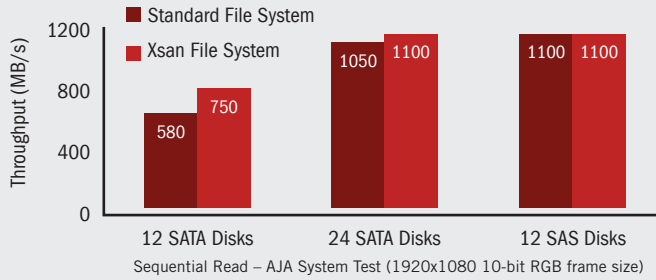

APPLE[®] PERFORMANCE METRICS

Details on performance with Xsan and AJA[™]

PERFORMANCE METRICS IN VIDEO EDITING APPLICATIONS

APPLE PERFORMANCE CHARACTERISTICS OF THE ASSURED SAN™ 3730 STORAGE SYSTEM
